To Whom It May Concern:

I have called upon the talents of Sal Piacente, as a guest speaker in my classes. He has both entertained and educated my 7th graders. He not only captivates the students, but the faculty as well. Both children and adults alike, are fascinated with his superb slight of hand moves, card tricks, memory skills, the way he uncovers casino and street scams by demonstrating techniques that con artists use, and the simple methods he teaches to add and multiply numbers. In both an intimate classroom setting and a larger auditorium setting, he has a gift for holding the attention of each audience member, which is no easy task. Spectators laugh, jaws drop, and everyone leaves wanting more, which is why Sal has an open invitation to perform at Ockerman Middle School.

I highly recommend Sal Piacente for any event. He has is incredibly gifted, knowledgeable, talented, and funny and the rapport he has with his audience is impeccable.

Sincerely yours,

Troy Williams
Teacher
Ockerman Middle School
